

```
Eigen::Matrix< Scalar,  
Eigen::Dynamic, 1 >
```

A diagram illustrating a relationship between two C++ types. At the bottom is a dark gray box containing the text `mm::ScalarField< Scalar >`. A blue arrow points vertically upwards from this box to a light gray box above it. The top box contains the text `Eigen::Matrix< Scalar, Eigen::Dynamic, 1 >`. This indicates that `mm::ScalarField< Scalar >` inherits from or is a specialization of `Eigen::Matrix< Scalar, Eigen::Dynamic, 1 >`.

```
mm::ScalarField< Scalar >
```
